Item 4: Advisory Business

Description of Advisory Firm

Fairlight Advisors is registered as an Investment Adviser with the State of California. We were founded September 30, 2019, and are a women- and minority-owned business. As of December 31, 2022, Fairlight has total assets of \$47,173,488 which includes discretionary assets under management of \$40,514,965, non-discretionary assets under management of \$130,691 and assets under advisement of \$6,527,833.

Types of Advisory Services

Investment Management Services (FA Manages)

Fairlight is in the business of managing individually tailored investment portfolios. The firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, Fairlight develops a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. Fairlight also reviews and discusses a Client's prior investment history and experience, as well as institutional or family composition and background.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Institutional Clients who are 501(c)3 entities may not have tax considerations but may have endowment or investment restrictions. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure. After developing a client's investment policy statement and in consultation with the client, Fairlight may invest in social impact investments tailored to the client's specific philosophy.

Use of Third-Party Managers, Outside Managers, or Sub-Advisors (TAMPs)

Fairlight offers the use of Third-Party Managers, Outside Managers, or Sub-Advisors (TAMPs) for portfolio management services. Fairlight assists Clients in selecting an appropriate allocation model, completing the Outside Manager's investor profile questionnaire, interacting with the Outside Manager and reviewing the Outside Manager. The review process and analysis of outside managers is further discussed in Item 8 of this Form ADV Part 2A. Additionally, Fairlight will meet with the Client on a periodic basis to discuss changes in their personal or financial situation, suitability, and any new or revised restrictions to be applied to the account. Fees pertaining to this service are outlined in Item 5 of this brochure.

Institutional Financial and Investment Consulting Services

In addition to Investment Management Services, Fairlight is hired by institutional clients to perform various consultative services. The extent of these services is pre-determined by Fairlight and the client prior to entering into an agreement.

Fairlight Financial Resilience Platform

This platform is a six-month engagement to develop the critical financial policies, procedures and reporting tools necessary for organizations to meet current spending needs, fulfill strategic plans and prepare for the unexpected. For one upfront engagement fee and then subsequent, fixed monthly fees, the Client works with Fairlight to create the following:

- **Liquidity Policy** to establish guidelines in the management of short-, medium-, and long-term funds, ensure the organization can meet expected and unexpected cash obligations at a reasonable cost, while maintaining appropriate reserves to support strategic and mission objectives.
- **Cash Reserves Optimization/Allocation** to maintain nominal cash value of assets, earn a competitive market rate return for cash equivalents and preserve principal and generate income commensurate with inflation to main purchasing power for future outlays.
- **Investment Policy** to prescribe a prudent and acceptable investment philosophy and investment management procedures to satisfy the long-term goals of the organization’s endowment or unrestricted board-designated fund.
- **Resilience X-Ray** to forecast organizational strength by monitoring risk factors such as governance, revenue timing, staffing, facilities, program operations and technology.

Clients may choose to engage Fairlight to maintain cash policies and Resilience X-Ray reporting on an ongoing basis for a monthly fee.

Investment Consulting

For an upfront fixed fee and then ongoing, fixed monthly fees, Clients engage Fairlight to work alongside the organization’s board and/or another third party to make asset allocation and/or security selection recommendations, consolidate reporting, conduct board education and deliver market and economic updates. In these instances, Fairlight does not have discretionary investment authority over the organization’s investment assets.

Financial Planning for Individuals and Families

Fairlight provides comprehensive financial planning packages, with a \$1,200 retainer upon signing the agreement and then billing commences monthly for the remainder of the engagement. The total fee for a client household is \$8,400. If the client retains Fairlight for asset management services during the engagement, the full fee is applied to the first year of asset management fees.

Comprehensive Financial Planning Package

1. Financial goal planning
2. Budget / savings planning
3. Risk tolerance / assessment, asset allocation & investment selection
4. Risk assessment planning with review of Insurance (risk transfer), risk mitigation or risk acceptance decisions
5. Employee Benefits & Tax Planning analysis
6. In-depth debt management strategies
7. Philanthropic Planning
8. Estate Planning
9. BillPay Analysis
10. Career compensation planning, salary negotiation, entrepreneurship planning

Deliverable:

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this

service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **Business Planning:** Fairlight provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, Fairlight work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.
- **Cash Flow and Debt Management:** Fairlight will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what Fairlight believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, Fairlight will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).
- **Employee Benefits Optimization:** Fairlight will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, Fairlight will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. Fairlight always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. Fairlight may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, Fairlight will participate in meetings or phone calls between you and your attorney with your approval or request.
- **Financial Goals:** Fairlight will help Clients identify financial goals and develop a plan to reach them. Fairlight will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.

- **Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments Fairlight may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, Fairlight may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, Fairlight may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

Fairlight recommends that you consult with a qualified tax professional before initiating any tax planning strategy, and Fairlight may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. Fairlight will participate in meetings or phone calls between you and your tax professional with your approval.

Ongoing Financial Planning

This service involves working one-on-one with a planner over an extended period of time. Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefit, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed

financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, Fairlight will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time. Clients who hire Fairlight Advisors for ongoing investment management will have their ongoing planning fees waived.

Pension Consulting Services

Our firm provides pension consulting services to employer plan sponsors on an ongoing basis. Generally, such services consist of assisting employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. As the needs of the plan sponsor dictate, areas of advising could include investment options, plan structure, and participant education.

In providing employee benefit plan services, our firm does not provide any advisory services with respect to the following types of assets: employer securities, real estate (excluding real estate funds and publicly traded REITS), participant loans, non-publicly traded securities or assets, other illiquid investments, or brokerage window programs (collectively, "Excluded Assets").

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our Clients. However, specific Client financial plans and their implementation are dependent upon the Client Investment Policy Statement which outlines each Client's current situation (income, tax levels, and risk tolerance levels) and is used to construct a Client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

Wrap Fee Programs

We do not participate in wrap fee programs.

CCR Section 260.235.2 Disclosure

For Clients who receive our Financial Planning services, we must state when a conflict exists between the interests of our firm and the interests of our Client. The Client is under no obligation to act upon our recommendation. If the Client elects to act on any of the recommendations, the Client is under no obligation to effect the transaction through our firm.

Item 5: Fees and Compensation

Please note, unless a Client has received the firm's Disclosure Brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the Client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Investment Management Services (Fairlight Manages)

Our standard advisory fee is based on the market value of the assets under management and is calculated as follows:

Account Value	Annual Advisory Fee
\$0 - \$2,000,000	0.85%
\$2,000,001 - \$5,000,000	0.70%
\$5,000,001 - \$10,000,000	0.55%
\$10,000,000 - \$25,000,000	0.40%
\$25,000,001 and above	0.35% (negotiable)

The annual fees are negotiable, pro-rated and paid in arrears on a quarterly basis. The advisory fee is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart, based on the average daily balance of the account throughout the quarter. We use a blended fee methodology which means our clients are billed according to each breakpoint level such that the fee blends across the various breakpoints.

For example, the total annual advisory fee for an account valued at \$5,200,000 would be calculated with three asset breakpoint rates as follows.

Assets	Breakpoint Rate	Breakpoint Fee
\$2,000,000 @	0.85%	\$17,000
\$3,000,000 @	0.70%	\$21,000
\$200,000 @	0.55%	\$1,100
Total Assets: \$5,200,000	Blended Fee: 0.75%	Total Annual Fee: \$39,100

The quarterly fee is determined by the following calculation: $\$39,100 \div 4 = \$9,775$. Our minimum annual fee is \$8,500 for investment management. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

We calculate period-end account values after all dividends settle in the account, therefore, the account value used to calculate advisory fees may differ from that of the custodial account statement. Our billing invoice will indicate the total account value used to calculate the advisory fee.

Advisory fees are directly debited from Client accounts, or the Client may choose to pay by check. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Institutional Financial and Investment Consulting Services

Institutional consulting engagements, described in Item 4 above, are charged based on Client's annual budget size and value of investable assets as follows:

Organization Type	Fairlight Program	Consulting Fee	Total Fee
Emerging Nonprofit Organizations: <ul style="list-style-type: none"> • Annual Budget less than \$2 million • Investable Assets less than \$1 million 	Financial Resilience Program*	\$3,375 retainer up front, followed by \$600 per month for five (5) months	\$6,375
Scaling Nonprofit Organizations: <ul style="list-style-type: none"> • Annual Budget between \$2 million and \$5 million • Investable Assets between \$1 million and \$5 million 	Financial Resilience Program*	\$3,375 retainer up front, followed by \$1,420 per month for five (5) months	\$10,475
Thriving Nonprofit Organizations: <ul style="list-style-type: none"> • Annual Budget greater than \$5 million • Investable Assets greater than \$5 million 	Financial Resilience Program*	\$6,750 retainer up front, followed by \$2,840 per month for five (5) months	\$20,950
Emerging Organizations (defined above)	Investment Consulting**	\$3,375 retainer up front, followed by \$600 per month for eleven (11) months	Year 1: \$9,975 Annually Thereafter: \$7,200
Scaling Organizations (defined above)	Investment Consulting**	\$3,375 retainer up front, followed by \$1,420 per month for eleven (11) months	Year 1: \$18,995 Annually Thereafter: \$17,040
Thriving Organizations (defined above)	Investment Consulting**	\$6,750 retainer up front, followed by \$2,840 per month for eleven (11) months	Year 1: \$37,990 Annually Thereafter: \$34,080

*The Fairlight Finance Resilience Program may be extended beyond the five-month period as an ongoing consulting arrangement at the associated monthly rate until terminated with written notice at least 30 calendar days in advance.

**Investment consulting engagements may be terminated with written notice at least 30 calendar days in advance.

Individuals and Family Financial Planning

Fairlight offers comprehensive financial planning, described in further detail in Item 4, above. Clients pay a \$1,200 retainer upon signing the agreement and then the fee is broken down monthly for the remainder of the

planning engagement. If the client retains Fairlight for asset management services during the planning engagement, all fees paid are applied to the first year of asset management fees.

Comprehensive Financial Planning - \$8,400

Ongoing Financial Planning

For Individual Investor Clients, Ongoing Financial Planning consists of an upfront charge of \$1,200 and an ongoing fee that is paid monthly, in advance, at the rate of \$800 per month. The fee may be negotiable in certain cases. Fees for this service may be paid by electronic funds transfer, check or credit card. This service may be terminated with 30 days' notice. Upon termination of any agreement, the fee will be prorated, and any unearned fee will be refunded to the Client.

The upfront portion of the Comprehensive Financial Planning fee is for Client onboarding, data gathering, and setting the basis for the financial plan. This work will commence immediately after the fee is paid and will be completed within the first 30 days of the date the fee is paid. Therefore, the upfront portion of the fee will not be paid more than 6 months in advance.

Modular Financial Planning Fixed Fees

Financial Planning will generally be offered on a fixed fee basis. The fixed fee will be agreed upon before the start of any work. The fee is negotiable. Fairlight will not bill an amount above \$500.00 more than 6 months in advance. Fees for this service may be paid by electronic funds transfer or check. In the event of early termination any prepaid but unearned fees will be refunded to the Client and any completed deliverables of the project will be provided to the Client and no further fees will be charged.

Financial Planning Hourly Fee

Hourly Financial Planning engagements are offered at an hourly rate between \$300.00 and \$400.00 per hour, depending on complexity. The fee may be negotiable in certain cases and is due at the completion of the engagement. In the event of early termination by the Client, any fees for the hours already worked will be due. Fees for this service may be paid by electronic funds transfer or check.

Pension Consulting Services

Account Value	Fairlight's Fee
\$0 - \$3,000,000	0.50%
\$3,000,001 - \$5,000,000	0.40%
\$5,000,001 - \$10,000,000	0.30%
\$10,000,000 and Above	0.20%

Fairlight will be compensated for pension consulting services according to the value of plan assets. The fee is calculated by assessing the percentage rates shown in the above chart, based on the value of the plan assets as of market close on the last day of the quarter. We use a blended fee methodology which means our clients are billed according to each breakpoint level such that the fee blends across the various breakpoints.

For example, the total annual advisory fee for an account valued at \$6,200,000 would be calculated with three asset breakpoint rates as follows.

Assets	Breakpoint Rate	Breakpoint Fee
\$3,000,000 @	0.50%	\$15,000
\$2,000,000 @	0.40%	\$8,000
\$1,200,000 @	0.30%	\$3,600
Total Assets: \$6,200,000	Blended Fee: 0.43%	Total Annual Fee: \$26,600

For example, a plan valued at \$6,200,000 would pay a blended fee of 0.43% with an annual fee of \$26,600 or \$6,650 per quarter. The quarterly fee is determined by the following calculation $\$26,600/4 = \$6,650$. This does not include fees to other parties, such as RecordKeepers, Custodians, or Third-Party-Administrators. Fees for this service are either paid directly by the plan sponsor or deducted directly from the plan assets by the Custodian on a quarterly basis, and Fairlight's fee is remitted to Fairlight.

To accommodate start-up pension plans, Fairlight charges a minimum flat fee of \$500 per quarter until assets reach a total balance of \$400,000 which, at that point, the fees revert to the above fee schedule.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

CCR Section 260.238(j) Disclosure

Please note, lower fees for comparable services may be available from other sources.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and portfolio management services to individuals, high net-worth individuals, pension and profit-sharing plans, and charitable organizations. We do not have a minimum account size requirement.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

When Clients have us complete an Investment Analysis (described in Item 4 of this brochure) as part of their financial plan, our primary methods of investment analysis are the use of Modern Portfolio Theory and diversified asset allocation.

Modern Portfolio Theory

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Use of Outside Managers: We may refer Clients to third-party investment advisers ("outside managers"). Our analysis of outside managers involves the examination of the experience, expertise, investment philosophies, and past performance of the outside managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the manager's underlying holdings, strategies, concentrations, and leverage as part of our overall periodic risk assessment. Additionally, as

part of our due diligence process, we survey the manager's compliance and business enterprise risks. A risk of investing with an outside manager who has been successful in the past is that he or she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in an outside manager's portfolio. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our Clients. Moreover, as we do not control the manager's daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Passive Investment Management

We primarily practice passive investment management. Passive investing involves building portfolios that are comprised of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e., the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Turnover Risk: At times, the strategy may have a portfolio turnover rate that is higher than other strategies. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution of additional capital gains for tax purposes. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Concentration Risk: Certain investment strategies focus on particular asset-classes, industries, sectors or types of investment. From time to time these strategies may be subject to greater risks of adverse developments in such areas of focus than a strategy that is more broadly diversified across a wider variety of investments.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Commercial Paper is, in most cases, an unsecured promissory note that is issued with a maturity of 270 days or less. Being unsecured the risk to the investor is that the issuer may default.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero-coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Bank Obligations including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Options and other derivatives carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option. When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices)

halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Promissory Notes and Payment-Dependent Investment Notes The largest risk associated with investing in promissory notes and payment-dependent investment notes is the chance of the borrower default. The investor can also lose money if the debt sold for less than the original cost of the note. Additionally, the company issuing the note can experience management problems or severe market conditions that make it impossible for the company to carry out its promise to pay interest and principal to note buyers.

Item 9: Disciplinary Information

Criminal or Civil Actions

Fairlight and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

Fairlight and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

Fairlight and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of Fairlight or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No Fairlight employee is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No Fairlight employee is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

Fairlight does not have any related parties. As a result, we do not have a relationship with any related parties.

Fairlight only receives compensation directly from Clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Recommendations or Selections of Other Investment Advisers

As referenced in Item 4 of this brochure, Fairlight recommends Clients to Outside Managers to manage their accounts. In the event that we recommend an Outside Manager, please note that we do not share in their advisory fee. Our fee is separate and in addition to their compensation (as noted in Item 5) and will be described to you prior to engagement. You are not obligated, contractually or otherwise, to use the services of any Outside

Manager we recommend. Additionally, Fairlight will only recommend an Outside Manager who is properly licensed or registered as an investment adviser.

Disclosure of Material Conflicts

All material conflicts of interest under CCR Section 260.238(k) are disclosed regarding Fairlight, its representatives or any of its employees, which could be reasonably expected to impair the rendering of unbiased and objective advice.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.
- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matter shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” do not invest in the same individual securities, or related securities, e.g., warrants, options or futures, which we recommend to Clients.

Trading Securities At/Around the Same Time as Client’s Securities

Because our firm and its “related persons” do not invest in the same securities, or related securities, e.g., warrants, options or futures, which we recommend to Clients, we do not trade in securities at or around the same time as Clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Fairlight Advisors does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

1. Research and Other Soft-Dollar Benefits

We currently do not receive soft dollar benefits.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

The Custodian and Brokers We Use (TD Ameritrade)

Advisor participates in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. (“TD Ameritrade”), member FINRA/SIPC. TD Ameritrade is an independent [and unaffiliated] SEC-registered broker-dealer. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance, and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14 below.)

The Custodian and Brokers We Use (Charles Schwab & Co., Inc. (Schwab))

Fairlight does not maintain custody of your assets that which we advise, although we may be deemed to have custody of your assets if you give us authority to withdraw assets from your account (see Item 15—Custody, below). Your assets must be maintained in an account at a “qualified custodian,” generally a broker-dealer or bank. We recommend that our clients use Charles Schwab & Co., Inc. (Schwab), a registered broker-dealer, member SIPC, as the qualified custodian. We are independently owned and operated and are not affiliated with Schwab. Schwab will hold your assets in a brokerage account and buy and sell securities when we instruct them to. While we recommend that you use Schwab as custodian/broker, you will decide whether to do so and will open your account with Schwab by entering into an account agreement directly with them. We do not open the account for you, although we may assist you in doing so. If you do not wish to place your assets with Schwab, then we cannot manage your account, although we may offer advice on how to invest the assets. Even though

your account is maintained at Schwab, we can still use other brokers to execute trades for your account as described below (see “Your brokerage and custody costs”).

For our clients’ accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees. Schwab is also compensated by earning interest on the uninvested cash in your account in Schwab’s Cash Features Program. For some accounts, Schwab may charge you a percentage of the dollar amount of assets in the account in lieu of commissions. This commitment benefits you because the overall fees you pay are lower than they would be otherwise. In addition to fees, Schwab charges you a flat dollar amount as a “prime broker” or “trade away” fee for each trade that we have executed by a different broker-dealer but where the securities bought or the funds from the securities sold are deposited (settled) into your Schwab account. These fees are in addition to the commissions or other compensation you pay the executing broker-dealer. Because of this, in order to minimize your trading costs, we have Schwab execute most trades for your account. We have determined that having Schwab execute most trades is consistent with our duty to seek “best execution” of your trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see “How we select brokers/custodians”).

Services Available to Us via Charles Schwab & Co., Inc.

Products and services available to us from Schwab

Schwab Advisor Services™ is Schwab’s business serving independent investment advisory firms like us. They provide us and our clients with access to their institutional brokerage services (trading, custody, reporting, and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our clients’ accounts, while others help us manage and grow our business. Schwab’s support services are generally available on an unsolicited basis (we don’t have to request them) and at no charge to us. Following is a more detailed description of Schwab’s support services:

Services that benefit you. Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab’s services described in this paragraph generally benefit you and your account.

Services that may not directly benefit you. Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our clients’ accounts. They include investment research, both Schwab’s own and that of third parties. We may use this research to service all or a substantial number of our clients’ accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- Provide access to client account data (such as duplicate trade confirmations and account statements)
- Facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- Provide pricing and other market data
- Facilitate payment of our fees from our clients’ accounts
- Assist with back-office functions, recordkeeping, and client reporting

Services that generally benefit only us. Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events
- Consulting on technology, compliance, legal, and business needs
- Publications and conferences on practice management and business succession
- Access to employee benefits providers, human capital consultants, and insurance providers
- Marketing consulting and support

Schwab may provide some of these services itself. In other cases, it will arrange for third-party vendors to provide the services to us. Schwab may also discount or waive its fees for some of these services or pay all or a part of a third party's fees. Schwab may also provide us with other benefits, such as occasional business entertainment of our personnel.

Our interest in Schwab's services

The availability of these services from Schwab benefits us because we do not have to produce or purchase them. We don't have to pay for Schwab's services. This creates an incentive to recommend that you maintain your account with Schwab, based on our interest in receiving Schwab's services that benefit our business and Schwab's payment for services for which we would otherwise have to pay rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Schwab as custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab's services (see "How we select brokers/ custodians") and not Schwab's services that benefit only us.

Aggregating (Block) Trading for Multiple Client Accounts

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Outside Managers used by Fairlight may block Client trades at their discretion. Their specific practices are further discussed in their ADV Part 2A, Item 12.

Item 13: Review of Accounts

Client accounts with the Investment Management Service will be reviewed regularly on a quarterly basis. The account is reviewed with regards to the Client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, additions or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

Fairlight will provide written reports to Investment Advisory Clients on a quarterly basis. We urge Clients to compare these reports against the account statements they receive from their custodian.

Fairlight will not provide written reports to Investment Advisory Clients.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

As disclosed under Item 12, above, Advisor participates in TD Ameritrade's institutional customer program and Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Advisor by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Advisor but may not benefit its Client accounts. These products or services may assist Advisor in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Advisor manage and further develop its business enterprise. The benefits received by Advisor or its personnel through participation in the program do not depend on the number of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to Clients, Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

We receive an economic benefit from Schwab in the form of the support products and services it makes available to us and other independent investment advisors whose clients maintain their accounts at Schwab. In addition, Schwab has also agreed to pay for certain products and services for which we would otherwise have to pay once the value of our clients' assets in accounts at Schwab reaches a certain amount. [In some cases, a recipient of such payments is an affiliate of ours or another party which has some pecuniary, financial or other interests in us (or in which we have such an interest).] These products and services, how they benefit us, and the related conflicts of interest are described above (see Item 12—Brokerage Practices).

Item 15: Custody

Fairlight does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which Fairlight directly debits their advisory fee:

- i. Fairlight will send a copy of its invoice to the custodian at the same time that it sends the Client a copy.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The Client will provide written authorization to Fairlight, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, we maintain discretion over Client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the Client.

Item 17: Voting Client Securities

Fairlight does not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

Item 19: Requirements for State-Registered Advisers

Maya Lis Tussing

Born: 1969

Educational Background

- Pomona College (1987 - 1991) - BA Psychology-Biology
- University of Washington (1996 - 1998) - MBA International Finance

Business Experience

- 09/2019 – Present, Fairlight Advisors, Co-Founder and CCO
- 03/2016 – 09/2019, Alesco Advisors, Principal
- 09/2014 – 03/2016, BlackRock Investments LLC, Registered Representative
- 11/2009 – 09/2014, BlackRock Inc., Risk Manager

Other Business Activities

Maya Lis Tussing is not involved with outside business activities.

Performance-Based Fees

Fairlight is not compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at Fairlight Advisors has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have with Issuers of Securities

Fairlight Advisors, nor Maya Lis Tussing, have any relationship or arrangement with issuers of securities.

Additional Compensation

Maya Lis Tussing does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through Fairlight.

Supervision

Maya Lis Tussing, as Co-Founder and Chief Compliance Officer of Fairlight, is responsible for supervision. She may be contacted at the phone number on this brochure supplement.

Requirements for State Registered Advisers

Maya Lis Tussing has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.

Conflicts of Interest

Pursuant to California Code of Regulations Section 260.238 (k) any material conflicts of interest regarding the investment adviser, its representatives or any of its employees are disclosed to the Client prior to entering into any Advisory or Financial Planning Agreement.

Business Continuity Plan

Fairlight Advisors maintains a written Business Continuity Plan that identifies procedures related to an emergency or significant business disruptions, including the death of the investment adviser or any of its representatives.

Katharine Earhart

Born: 1969

Educational Background

- University of California, Los Angeles (1987 - 1991) - BA English

Business Experience
